

Professional Development Courses

Here at Chiltern, we recognise the importance of ensuring all staff are kept up to date with changes in the Childcare sector. To help promote good practice, we offer a series of workshops which are available to all levels of staff.

These workshops are offered at our Reading and Newbury training rooms, but are also available to be delivered in—house for a minimum of 10 candidates.

Each workshop is delivered by an expert in their field and certificates of attendance are available for your CPD file.

We also encourage the practice of self appraisal and at the end of each course, Reflective Practitioner forms are distributed for completion and maintenance in your CPD file.

We can also offer bespoke courses to meet the specific requirements of your setting.

If you have any specific requests for courses, or if you feel you could help deliver one of our workshops, contact the Senior Tutor now on 0118 956 6995.
